Vehicle Progress Report

Reported by: Elvin Horne

Elvin & Myrtle Horne

1966 Oldsmobile Toronado, Elvin is working on the car mechanical systems.

Jerry Hicks

1940 Cadillac LaSalle 4dr sedan, Its all original minus the engine and trans. It has all of the trim. "Good Score Jerry"!

Lee Coleman

Working on a 1955 Chevy 1/2 ton truck. He has made considerable progress. Working closely with H&H (Harris & Hicks). He has installed the engine, trans, rear end, rack and pinion, four wheel disc brakes, headers and tires and wheels. Says he will be running wires real soon.

Terry Harris

Motivated to work on his 1936 Buick Century 4dr. He has a good start with the engine and transmission mounted. The steering gear is also on the car. His next step will be outfitting and installing the rear end and then the exhaust. His goal is to have it into the body and paint shop this year.

Ron Shaffier

Ready to gut his little orange crate engine. He has given up on the six banger and the factory straight axle. He has his eye on a Rack and Pinion Front End and a 5.3 Vortec engine from a 2004 Pickup. Says he's been thinking about becoming the "Rabbit" when we go on trips.
